

MAHA KHAN

Software Developer | IT Support

SUMMARY

Memorial University Computer Science graduate with hands-on experience in IT support, software development, and customer service. Proven ability to troubleshoot technical issues, support end-users in high-demand environments, and communicate solutions clearly to non-technical users. Experience includes help desk support and an enterprise internship at Verafin, with strong skills in problem-solving, teamwork, and delivering reliable, service-focused technical support.

EXPERIENCE

IT Support – Help Desk

Oct 2025 – Present | St. John's, NL

The Commons, Memorial University of Newfoundland

- Provide front-line technical support to students, faculty, staff, and public users in a high-traffic university library environment, resolving printing, editing, device, and software access issues.
- Troubleshoot hardware, software, peripheral, and user-access issues in person while maintaining a professional, calm, and customer-focused approach.
- Communicate technical instructions clearly to non-technical users, translating complex steps into simple guidance for students and visitors.
- Prioritize multiple walk-in requests during peak periods, escalating when needed to ensure timely resolution.

Software Development Intern

Jan 2025 – Aug 2025 | St. John's, NL

Verafin — EDP Framework Support Team, Data Platform Pillar

- Monitor and maintain the EDP data pipeline
- Troubleshoot and resolve pipeline failures
- Develop internal tools to streamline triage and monitoring processes
- Handle common cases and make infrastructure changes for the Datalakes Collected Pipelines and the overall Datalakes environment

Supervisor / Key Holder

May 2022 – Aug 2025 | St. John's, NL

Newfoundland Chocolate Company

- Promoted from Customer Service Representative to Supervisor and Key Holder, reflecting strong reliability and leadership.
- Handled opening/closing responsibilities, cash-handling, and team member training during shifts.
- Built 3+ years of customer-facing experience strengthening communication, patience, and problem-solving under pressure.
